

## **GoEngineer Acquires Engatech's Stratasys 3D Printing Sales & Support Business**

**Salt Lake City, UT, January 1, 2017** – GoEngineer announces the acquisition of Engatech, Inc. The combined resources of Engatech and GoEngineer will fully enable us to continue to support you in your 3D printing product, service, and support needs.

In addition to the full suite of innovative Stratasys 3D printing technology, GoEngineer also provides support, training and sales in best in class products with SolidWorks CAD, Scanning, CAM and PLM.

With a staff of over 90 certified technical associates, GoEngineer will be able to provide its expertise to assist you with your current and future Design and Manufacturing needs. GoEngineer also offers a toll-free technical support hotline available 8:00 a.m. – 7:00 p.m. Central Time.

### **Questions & Answers related to GoEngineer acquisition of Engatech's Stratasys 3D Printing Sales & Support Business:**

#### **I'm an Engatech customer, what does this mean for me?**

GoEngineer will honor all annual support/maintenance agreements previously placed and paid for with Engatech and will become your complete support provider moving forward.

GoEngineer brings a new toll-free technical support hotline staffed with fully certified support technicians and available for 11 continuous hours throughout the business day beginning at 8:00 a.m. Central time. GoEngineer's hotline serves customers during standard business hours, across the Central, Mountain & Pacific time zones.

In addition, GoEngineer operates 17 additional training/support centers located throughout South Central and the Western U.S. for use by your remote employees, contractors, partners, or other divisions of your company.

GoEngineer will begin working with you to update your accounting and contact records to reflect the new name and tax information.

#### **When is this acquisition effective?**

January 1, 2017.

Beginning January 1, 2017, it will be GoEngineer's pleasure to process orders and provide support with respect to your 3D printing products.

#### **Where is GoEngineer headquartered?**

GoEngineer  
1787 Ft Union Blvd, Ste 100  
Cottonwood Heights, UT 84121  
Ph. (801) 359-6100 / Fax (801) 359-6169

GoEngineer is headquartered in Salt Lake City, Utah, where it maintains a branch office and call center providing expanded hours of toll-free, centralized technical support and customer service to all customers.

Full-service branch offices and certified training centers are maintained throughout California, Idaho, Oregon, Washington, Utah, Texas, Oklahoma, Louisiana and Arkansas. GoEngineer's PLM group is headquartered in Denver, Colorado and serves customers throughout North America.

#### **How many employees does GoEngineer have prior to the acquisition?**

Approximately 200 employees, including over 90 certified technical, product, and industry experts.

**Where will I call for technical support?**

You will soon be contacted by GoEngineer's technical or sales staff. You will also be able to call GoEngineer's toll-free hotline, (888) 559-6167, which is available from 8 a.m. – 7 p.m. Central time.

**Will I still be served by the same branch and staff I am used to?**

You will be served at GoEngineer offices in Oklahoma and Texas, and you will have additional resources available at your discretion. [GoEngineer Locations](#)

**Why does GoEngineer think this will be successful?**

GoEngineer has a preexisting presence in the **TOLA** region. GoEngineer is a long-time industry veteran with a strong and consistent track record with CAD design and 3D printing products. As you may know, GoEngineer completed a successful acquisition of Engatech's SolidWorks CAD business in January 2013, and successfully transitioned Engatech's SolidWorks business at that time. We anticipate that this acquisition will likewise be successful.

GoEngineer has a solid history of listening to its customers, delivering affordable and effective solutions to them, and contributing to their continued success. Upon experiencing what the GoEngineer team can deliver, we are confident that you will agree. We look forward to getting to know you and building a long-term business partnership.
